Communities of Faith United for Housing (CFUH)

is an advocacy network of faith communities in the Fairfax/Falls Church community who are committed to increasing the supply of affordable housing within our community with a special focus on providing permanent housing opportunities for those at the lowest levels of income who are either homeless or dangerously close to becoming homeless.

Communities of Faith United for Housing

Our History is in the Hypothermia Shelter ministry for our homeless brothers and sisters that faith communities throughout the Fairfax-Falls Church community share each winter. Participating congregations opened their doors and their hearts to serve this vulnerable population, made homes of their facilities, and shared hot meals, companionship and compassion. While the work was rewarding, volunteers were eager to transform this temporary program into policies and actions that would provide permanent supportive housing for the homeless and ensure affordable housing for all.

Our Mission is to build broad faith-based grassroots support for public policies that end homelessness and increase the supply of affordable housing. Our goal is to increase the supply of affordable housing within our community, with a special focus on providing permanent housing opportunities for those at the lowest levels of income, who are either homeless or dangerously close to becoming homeless.

Our Strategy is to seek alliances with like-minded individuals and organizations to increase public awareness and understanding of the benefits that affordable communities provide for all of us; to support our local government officials' efforts to preserve the supply of affordable housing and encourage them to increase affordable housing production; and to help those who provide affordable housing overcome community resistance to their efforts.

Our Invitation is to all communities of faith, individuals, organizations, businesses, and agencies in the Fairfax-Falls Church community to declare homelessness an act of social injustice; thereby committing themselves in actions of advocacy to not only end homelessness, but to support the need for decent, affordable housing for all members of our community.
